Creation of our liquids workshop.

1996

## ROUGEVERT

Creation of the ROUGEVERT brand.

1997

Purchase of the brand

## MICRO GRANULES

Production of our first micro granules PLANSTART.

2004

Purchase of the brand

2008

2017

## A NEW GENERATION

Franck ABEILLE, fifth generation, becomes co-manager of the company PLANTIN.

## OUR STORY IS NOT MADE ONLY OF FERTILIZER ...

In 1923, Henri Plantin became the manager of Château Mont-Redon. In 1980, the vineyard got wider in buying a property in the Côtes-du-Rhône, and in 1997, one in Lirac. Nowadays, Château Mont-Redon owns 186 hectares in the Châteauneuf-du-Pape appellation, of which 100 are planted with vines.

# IN FRANCE AND IN THE WORLD!

**PLANTIN** markets its specialty fertilizers to farmers around the world.

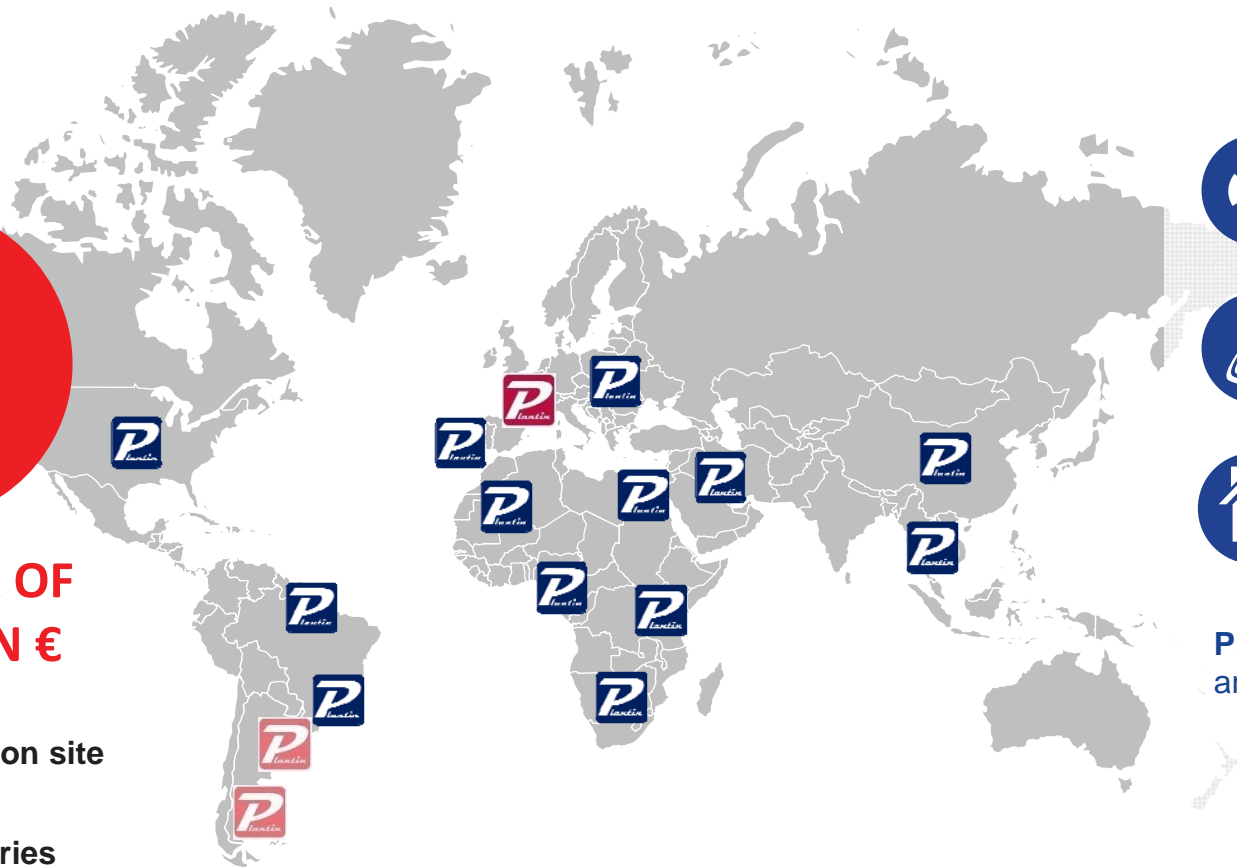

**TURNOVER OF  
12 MILLION €**

 Production site

 Subsidiaries

 Commercial exchanges

**1**

## PRODUCTION SITE

1 production site on 7 hectares including 2,5 hectares of buildings.

**40**

## EMPLOYEES

More than 50% of the workforce dedicated to industrial operations

**4**

## TOOLS OF PRODUCTION

1 granulation workshop (Production capacity 15 000 tons), 1 water-solubles workshop (Production capacity 10 000 tons), 1 liquids workshop (Production capacity 10 000 000 liters) and 1 speciality workshop.

**1**

## 1 R&D SERVICE

1 research laboratory.

# OUR KNOW-HOW: GRANULES

## 3 PARTICLES SIZES

Standard : 2 to 6 mm  
Mini : 1 to 3 mm  
Micro : 0,5 to 1,2 mm

## TYPES OF GRANULES

Organo-mineral  
Organo-mineral suitable for OF\*  
Micro granules starter  
Micro granules with microbial preparation  
Mini granules for forage crops  
Mineral fertilizers  
Fertilizers with slow-release nitrogen

3

## GRANULATION workshop

## TYPES OF CROPS

Arboriculture  
Large-scale Farming  
Market Gardening  
Vine

Also : parks, lawn and meadow - pastures.

## PACKAGING

Big bag of 600 and 1000 kg  
Bag of 25 kg  
Buckets of 1, 2, 5 and 10 kg

OF\* : Product that can be used in organic farming in application of the EC Regulation No 834/2007.

# OUR KNOW-HOW: WATER-SOLUBLES

## TYPES OF WATER-SOLUBLES

NPK soluble + TE  
Mixed trace elements  
Foliar fertilizers in powder  
Foliar fertilizers against deficiency

## TYPES OF CROPS

Arboriculture  
Market Gardening  
Hydroponics

## PACKAGING

Bag of 25 kg

# OUR KNOW-HOW: LIQUIDS

## TYPES OF LIQUIDS

Nutrient solutions NPK + TE  
Foliar fertilizers  
Mixed trace elements  
NPK suitable in OF\*

## TYPES OF CROPS

Arboriculture  
Large-scale Farming  
Market Gardening  
Vine

Also : parks and lawn.

## PACKAGING

Drums of 5, 10, 20 and 200 L  
Tank of 1000 L

OF\* : Product that can be used in organic farming in application of the EC Regulation No 834/2007.
